

PANT SIZING & GARMENT MEASUREMENTS

FIT DESCRIPTION

- The Chinos are a slim fit.
- We make half sizes so you get the perfect fit.
- The pants are cut with a fitted leg. Please refer to the photos displayed on the website for the fit of the pants.
- Cut with a slightly lower rise to avoid bagging fabric at the backside of the pants.
- Made from Japanese stretch cotton fabric so you will have some leeway with the fit.
- The chinos are pre-shrunk during production. They will be a little tight when you first try them on although will stretch out after a couple of hours of wear.
- If you order a size 32 they will feel like a 31 when you first try them on although they will stretch out to the correct size.
- The pants will mould to your body shape after a couple of days wear. The elastane helps keep the shape.

MEASUREMENTS

- Use a similar garment of your own compare these measurements to.
- All measurements are taken with the garment lying flat from the outside or to the edge of the seam. Please refer to each of the measurement descriptions on the below diagrams.

Size	Waist	Rise	Outside Leg	Inside Leg	Leg Opening
29	80	23.5	106	86.5	32.5
30	83	24	107	86.5	33.5
31	86	24.5	108	86.5	34
32	89	24.5	109.5	87	34
33	92	25	110.5	87	34.5
34	95	25.5	110.5	87	35.5
35	97.5	25.5	111.5	87	35.5
36	100.5	26	111.5	87.5	36.5

MEASURE GUIDE

Here are some guides and tips on how the measurements are taken and compare these to your own garment for a great fit.

WAIST

Measure the total length from the centre of the main button around the inside of the waistband to the main button hole.

RISE

Measure along the fly from the seam at the centre of the crutch of the pants up to the top of the waistband.

OUTSIDE LEG

Measure from the top of the waistband along the outside leg seam to the pants hem.

INSIDE LEG

Measure along the inside leg from the seam at the centre of the crutch of the pants, down to the pants hem.

LEG OPENING

With the legs flat, measure across the hem of the pants & double to find the measurement.

STYLE ADVISE
